Job Hunter Program

We focus on the influence of the mind, and impact of trauma on recovery and RTW to achieve superior RTW results, inline with the RACP "it pays to Care" guidelines

<https://www.racp.edu.au/advocacy/division-faculty-and-chapter-priorities/faculty-of-occupational-environmental-medicine/it-pays-to-care>

Using trauma informed practice, we seek to ascertain what the client needs and what they can do, rather than what is 'wrong' with them

"Workers asked about biopsychosocial factors, and supported to address these factors, express satisfaction with the care they receive and have reduced work disability"

<https://www.racp.edu.au/advocacy/division-faculty-and-chapter-priorities/faculty-of-occupational-environmental-medicine/it-pays-to-care>

1. *The program begins with a "Meet and Greet" with the client, where a comprehensive holistic Biopsychosocial assessment of the CLIENT'S needs is completed*

2. *The Career Coach then engages the client to develop a stepwise plan to achieve recovery to health and work*

3. *The **First Step** is to then establish whether a RTW with the self insurer is a possible consideration*

4. *The **Second Step** is then to ascertain if a RTW in the PI role is achievable, or if a different role needs to be considered*

5. *If a RTW with the self insurer is not possible, then the **final step** is to investigate new career options for the client and complete the tasks necessary to enable the client to move into a new career*

Client feedback on Beneficent services

"My consultant has been helpful every step of the way and goes above and beyond for his assigned clients"

My consultant was wonderful in helping me build my self esteem , encouragement , building my resume and cover letters along with canvassing and emailing employees for position helped me believe in myself.

Weekly phone calls gave me encouragement along with having my consultant inspiring me with suggestions and how to put myself out there again. I secured a position through my consultant emailing my Resume to prospective employers"

"The best aspects of Beneficent's service were my consultants, as very supportive and empowering individuals. Having someone support you who is relatable, intelligent, non-judgmental and empathic, really helped me when applying for work and during the interview process, they also helped me a great deal as I work through the early stages of returning to work.

"I was amazed at how much this course benefited me. I could not be more happy with how it all went. I have a lot more confidence and faith in myself to succeed in what I do. I feel much more grounded and calm. I can think much clearer about a situation and act accordingly"

"Beneficent was an absolute lifeline for me. I feel very grateful and thankful this network is in place to supplement the healing process. At my most vulnerable, I could not have asked for better help, the Beneficent services are a gift for the broken, skilled at putting the pieces back together with a mix of kindness and compassion."
